News and Updates for Participating E3 Teachers ~ September 19, 2008

Equipment is Coming!!!!

We have ordered each school a set of student response pads. The model we purchased uses a radio frequency, which is much stronger and more reliable than the previous infrared style we've ordered in the past. These also have the added feature of allowing students to enter numerical responses.

Schools that have not yet received classroom computers should be receiving them by November.

PowerTeacher Gradebook

Many fourth- through sixth-grade teachers have begun using PowerTeacher gradebook. Several of these teachers mix up their classes as a way to differentiate instruction, and we were able to adjust class lists within PowerSchool to reflect these changes.

Any elementary teachers who need to make adjustments in individual subject areas may send these requests to Eric Jarvis

Professional Development Overview

Participating E3 teachers will be taking a PowerTeacher class, a class on using student response pads, and a student multimedia class.

So far, we've offered seven sessions of PowerTeacher, and two more have just been added. We will continue to add E3 class sessions throughout the school year and are more than happy to set up classes by request. Please contact Eric Jarvis if you have any questions or concerns about the Engage, Explore, Express program.

Upcoming E3 EdTech Classes

- PowerTeacher Gradebook..... Hawthorne C-Lab Oct. 6 & 13 from 3:30 to 5:00
- PowerTeacher Gradebook..... SLCUSD, Room H-4 Tues., Dec. 2 from 8:30 to 11:30
